

FNQ SUICIDE PREVENTION WEEK 2020

BACKYARD MAKEOVER LAUNCH

Reception →

Meeting
Place →

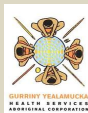

The aim of the FNQ Suicide Prevention Taskforce Backyard Makeover Program is to improve mental, social and physical outcomes for isolated people requiring assistance with a small makeover of their backyards. It includes landscaping, gardening and backyard repairs.

The inaugural backyard makeover has been carried out at the Couch Wellness Centre to offer their clients a space to relax and enjoy some garden therapy. The Couch Wellness Centre provides people diagnosed and living with cancer and their family and friends with well-being and lifestyle support.

The Backyard Makeover Program will be launched during FNQ Suicide Prevention Week 2020. For further information on the Backyard Makeover Project visit www.kochfoundation.org.au
